

TIMO LAAKSO

PhD

Timo Laakso (PhD, Master of Education) is a Senior Lecturer in the Faculty of Health and Sciences in University of Jyväskylä, Finland.

He has worked as Senior Lecturer since 1999 and his major focus on teaching is ball games. He has used Nonlinear Pedagogy in his teaching several years and his thesis (From Individual to Collective Tactical Behaviour in Youth Football) theoretical framework was based on Ecological Dynamics.

His practical lesson "Ideas for tag-games and catching-games using CLA (Constraints Led Approach) in invasion games" gives practical examples in using Nonlinear pedagogy in P.E. lessons.
